

AMOUNT OF TARGET CONCEALMENT	DIE ROLL TO DETECT
None	1 to 10
Less than one-third	1 to 7
One-third to two-thirds	1 to 5
More than two-thirds	1 to 3
Total	No detection

1. Movement or fire by a piece makes it detectable at the next lower concealment rate.
2. In addition, check to see if the type of weapon fired by a piece increases the chance of detection.
3. Detection enhancement systems also increase the chance to detect. Refer to the information below.

## DETECTION ENHANCEMENT SYSTEMS

SYSTEM	INCREASED CHANCE TO DETECT	MAXIMUM RANGE
Augmented	+ 1	80
Extended	+ 2	120
Enhanced	+ 3	160
