A *Lion* L-136 heavy tracked tank stands guard in an industrial district as infantrymen of the Landoth Protectorate sweep surrounding buildings.

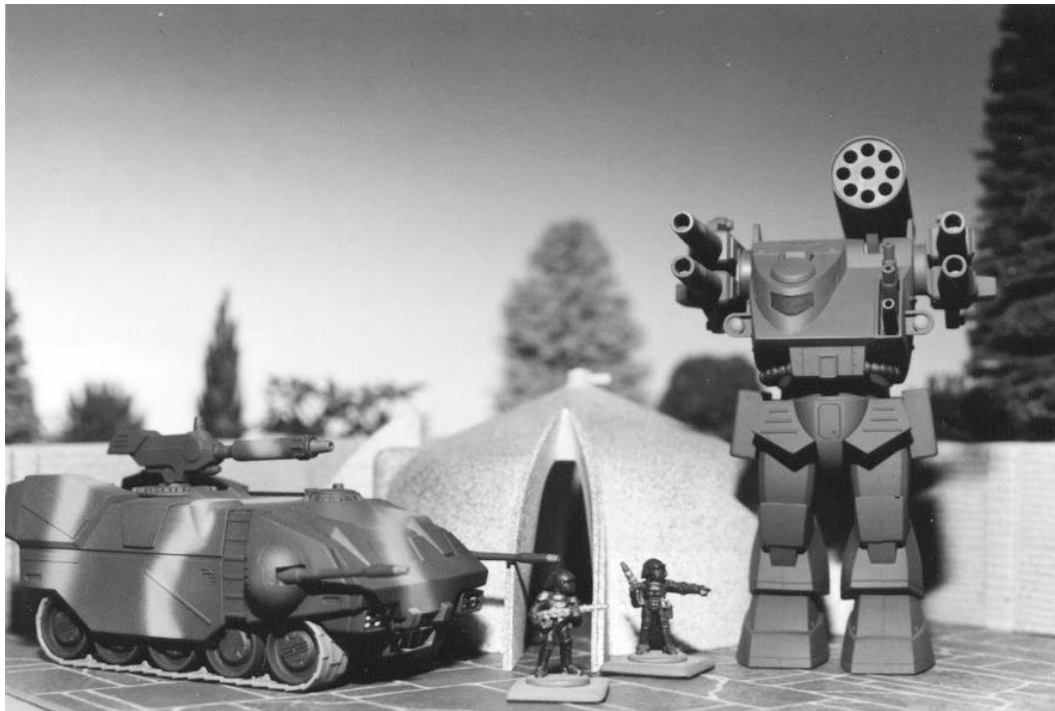

Attack! Supported by an *Avenger* artillery rocket carriage, a prototype *Vanguard* grav tank and infantry of the Gavilan Coalition advance to contact.

Twilight on another world. One sun sets as a smaller sun rises behind troops of the Landoth Protectorate's 17th Strikers and a *Leopard* L-122 heavy tracked destroyer, awaiting enemy action on a frontier planet.

With the sector secure, the 63rd Strikers of the Toron Dominion pause beside a *Lynx* T-27B armored personnel carrier and a *Wolverine* T-84 heavy battledrone.
