Illustrations by Stephen Streit.

Photographs by Thomas R. Heysek, Ph.D., Bruce G. Glagola, Ph.D. and Carter L. Kirk.

Graphics by Godfox.

1990 Edition produced and published by Godfox Enterprises.

Relatively simple in design, the first LaserGrenadiers patch is famous for its battlefield introduction. The patch was produced by troops of the 2nd LaserGrenadiers who were holed up in the garment district of Ott during the battle for the starport. Using captured embroidery machines the grenadiers produced sufficient patches to distribute to their comrades. The patch formed the basis for all LaserGrenadiers unit insignia and patches to the present day.
